

MINING PRODUCTION INTELLIGENCE REPORT

Generated at 2026-09-17T09:06:24.550966+00:00

1. Executive Summary

The dataset contains 12 rows and a quality score of 100.00. Latest production is 1,152.00 tonnes with growth of 30.17%. Target achievement is 88.96%. The primary anomaly is in 2021.

2. Dataset Overview

Rows: 12, Columns: 7, Quality Score: 100.00

Missing Values: 0, Duplicates: 0, Invalid Numeric Values: 0

Year Range: 2,019 - 2,025

3. Key Performance Indicators

Total Production: 6,907.00

Average Production: 575.58

Latest Production: 1,152.00

Growth: 30.17%

Target Achievement: 88.96%

Highest Production Year: 2,023

Lowest Production Year: 2,019

Anomalies: 5

4. Production Trends

Year	Production	Target
2019	720.00	780.00
2020	760.00	800.00
2021	1,050.00	1,080.00
2022	1,155.00	1,135.00
2023	1,185.00	1,180.00
2024	885.00	1,250.00
2025	1,152.00	1,295.00

5. Target Achievement

Target achievement is calculated only when the dataset provides a target column.

If the dataset has no target field, target-specific metrics are omitted rather than invented.

6. Anomaly Detection

Primary anomaly: 2021 with HIGH severity.

Actual: 1,050.00, Expected: 824.01, Deviation: 27.43%

Production in 2021 was 27.4% above the expected level. and 38.2% above the previous year's production.

7. Forecast

2026: 1,074.00 tonnes (781.06 - 1,366.94)

2027: 1,037.00 tonnes (744.06 - 1,329.94)

2028: 1,087.67 tonnes (794.72 - 1,380.61)

8. Major Insights

Latest annual production is 1,152.00 tonnes in 2025.

Year-over-year growth is 30.17%.

Target achievement is 88.96%.

The most significant anomaly is 2021 with a 27.43% deviation.

The next forecast year is 2026 at 1,074.00 tonnes.

9. Risk Indicators

Production in 2021 was 27.4% above the expected level. and 38.2% above the previous year's production.

10. Recommendations

Review the years flagged as anomalies and verify operational records.

Compare underperforming years against target achievement and mine-level breakdowns.

Retrain the forecasting model after each new dataset upload to keep the model current.

11. AI Narrative

The dataset contains 12 rows and a quality score of 100.00. Latest production is 1,152.00 tonnes with growth of 30.17%. Target achievement is 88.96%. The primary anomaly is in 2021.
